Do 10 Hours of SEO Tasks in 10 Minutes...

And invest the remaining time into things **THAT TRULY MATTER**.

Building an SEO strategy is quite **overwhelming** – an endless amount of research, a ton of data to analyze, and the constant struggle to prioritize tasks.

Here's what most of us spend hours doing:

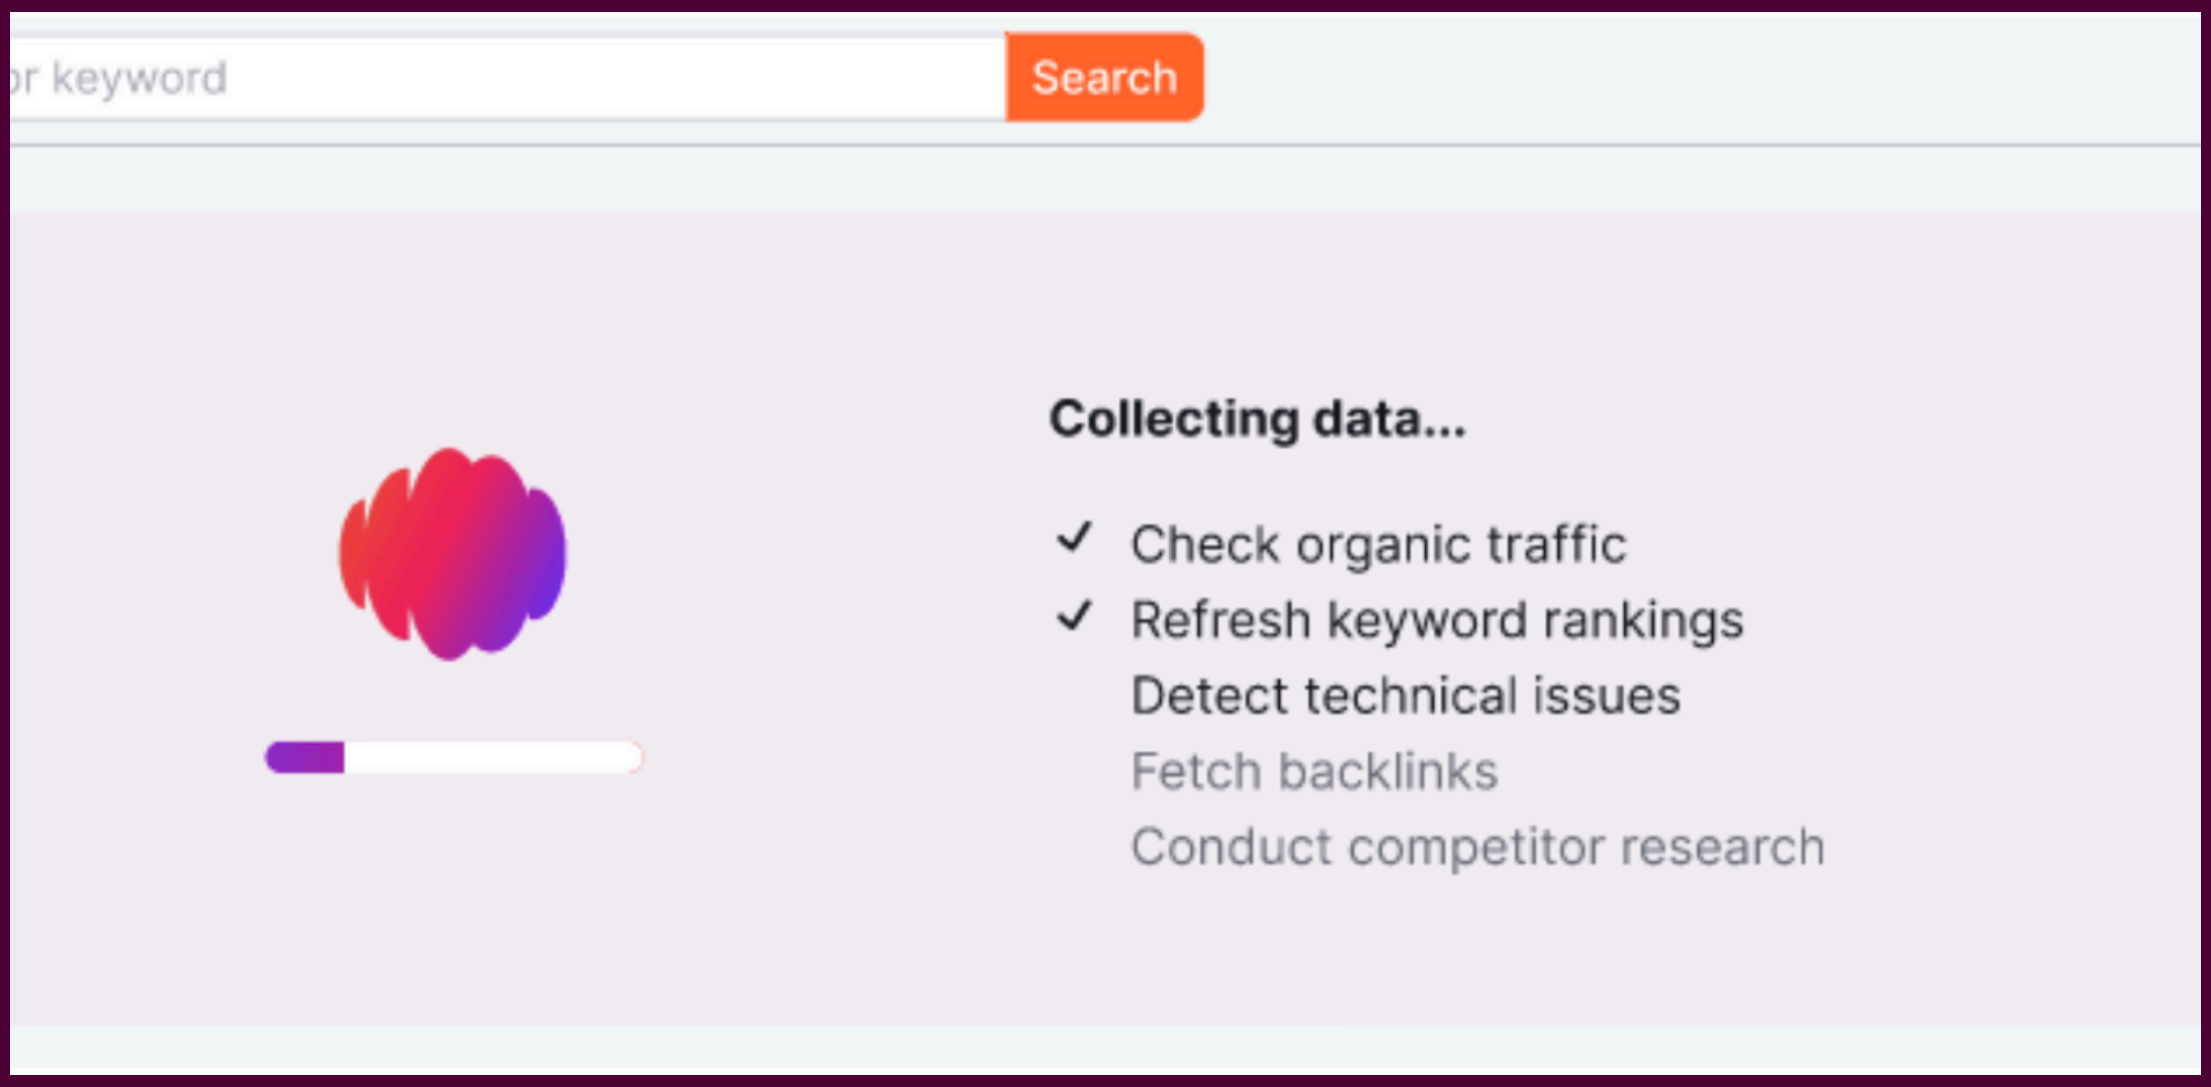
- Juggling **multiple SEO tools**, each with its own learning curve
- Digging through **massive datasets**
- Feeling stuck, unsure **what to tackle first**

But, what if I tell you, you can spend **less time wrestling with data** and **more time strategizing your next SEO win?** 🙂

And hey! It's **not unrealistic** when you have an **AI SEO assistant** by your side!

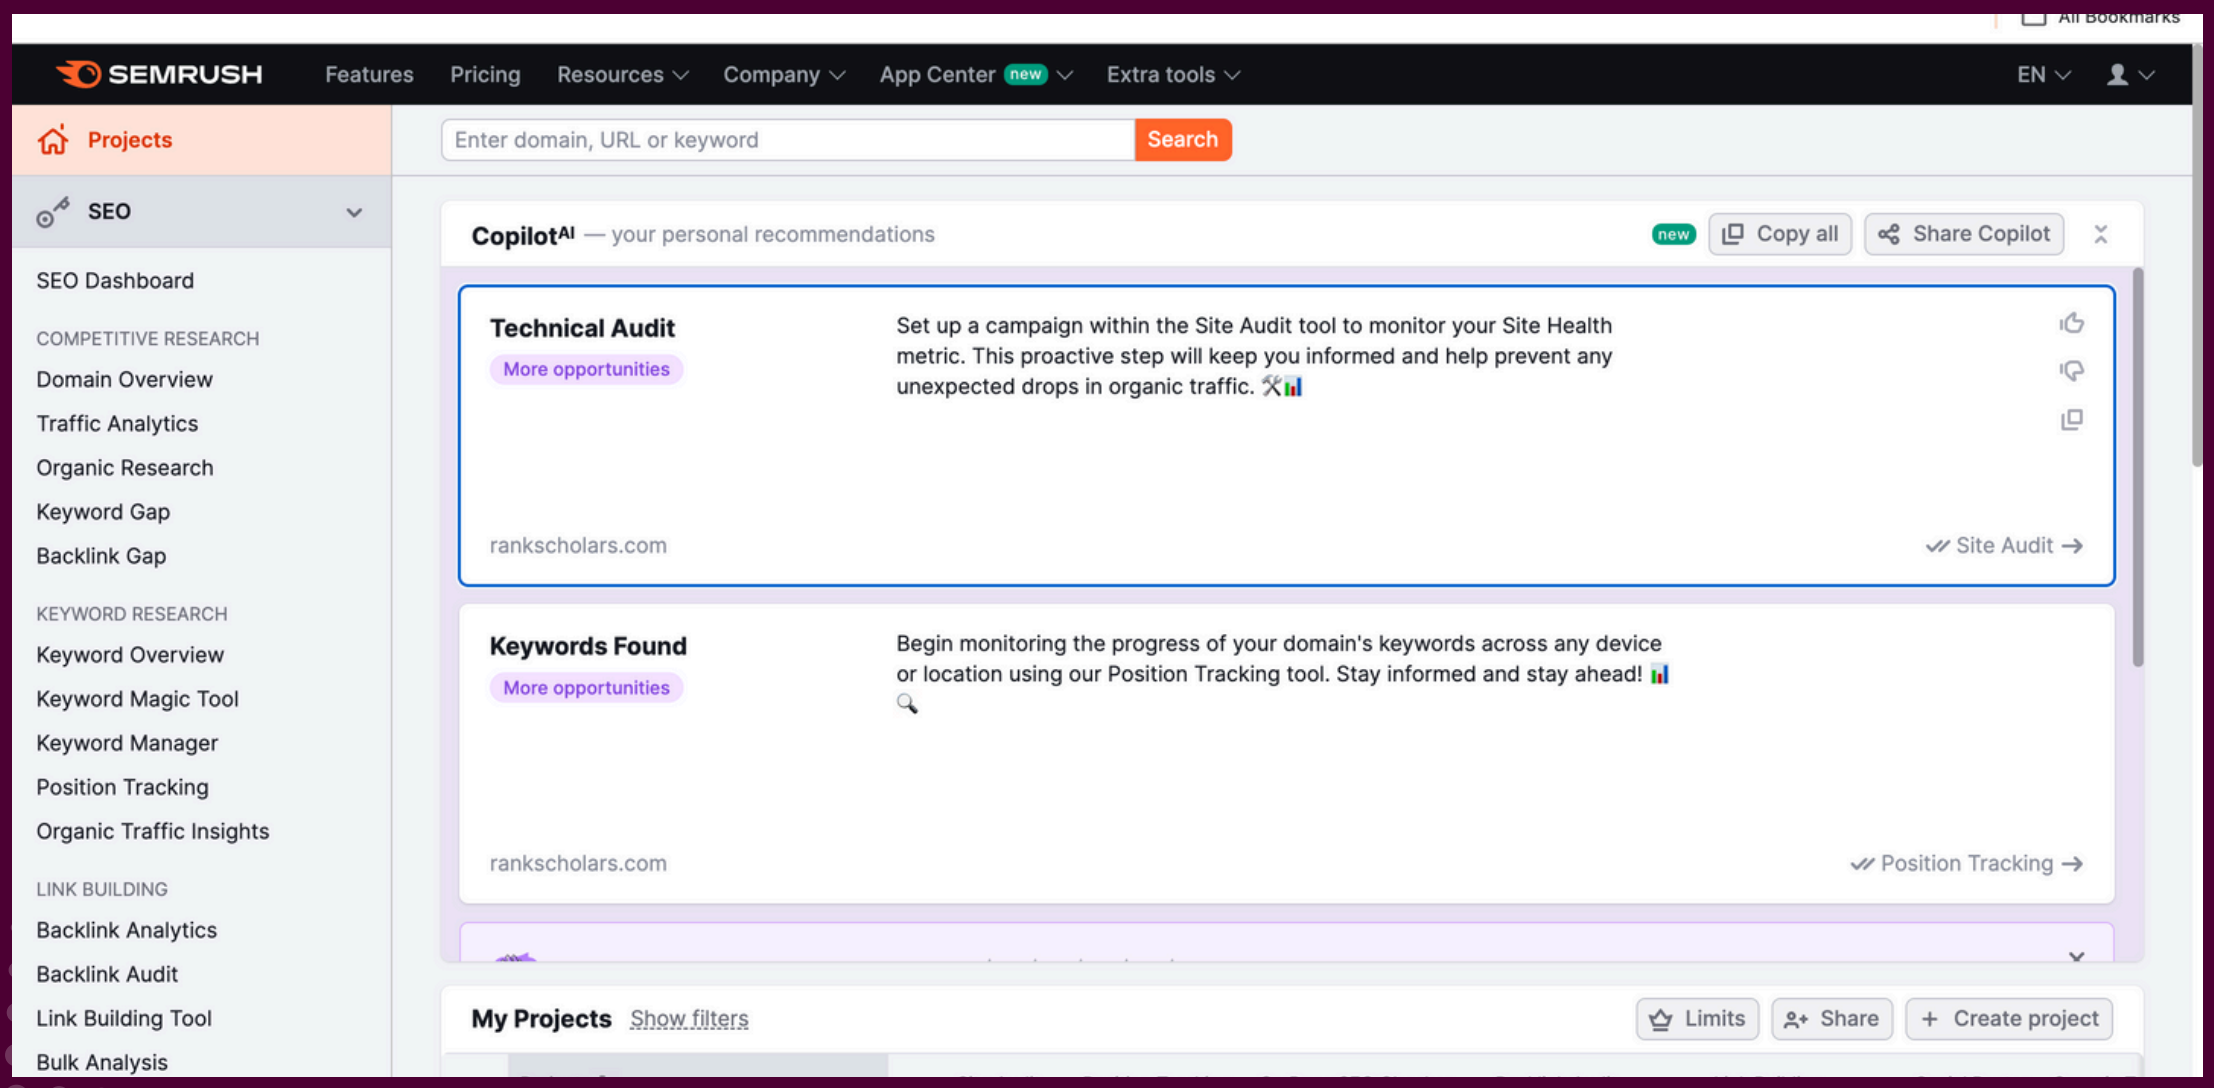
Semrush has recently introduced an amazing tool '**Semrush Copilot**', which cuts through the clutter and helps you focus on what truly matters.

Semrush Copilot analyzes data across **ALL your Semrush projects** in seconds (seriously, seconds!), and creates a **personalized SEO plan** with the **most impactful tasks** at the top.



You can think of **Semrush Copilot** as your ultimate **time-saving tool:**

- No more wasting hours **switching between platforms**
- No more **getting lost in the data**
- No more guessing **what to prioritize next**



Copilot leverages the **power of these 6 trusted Semrush tools:**

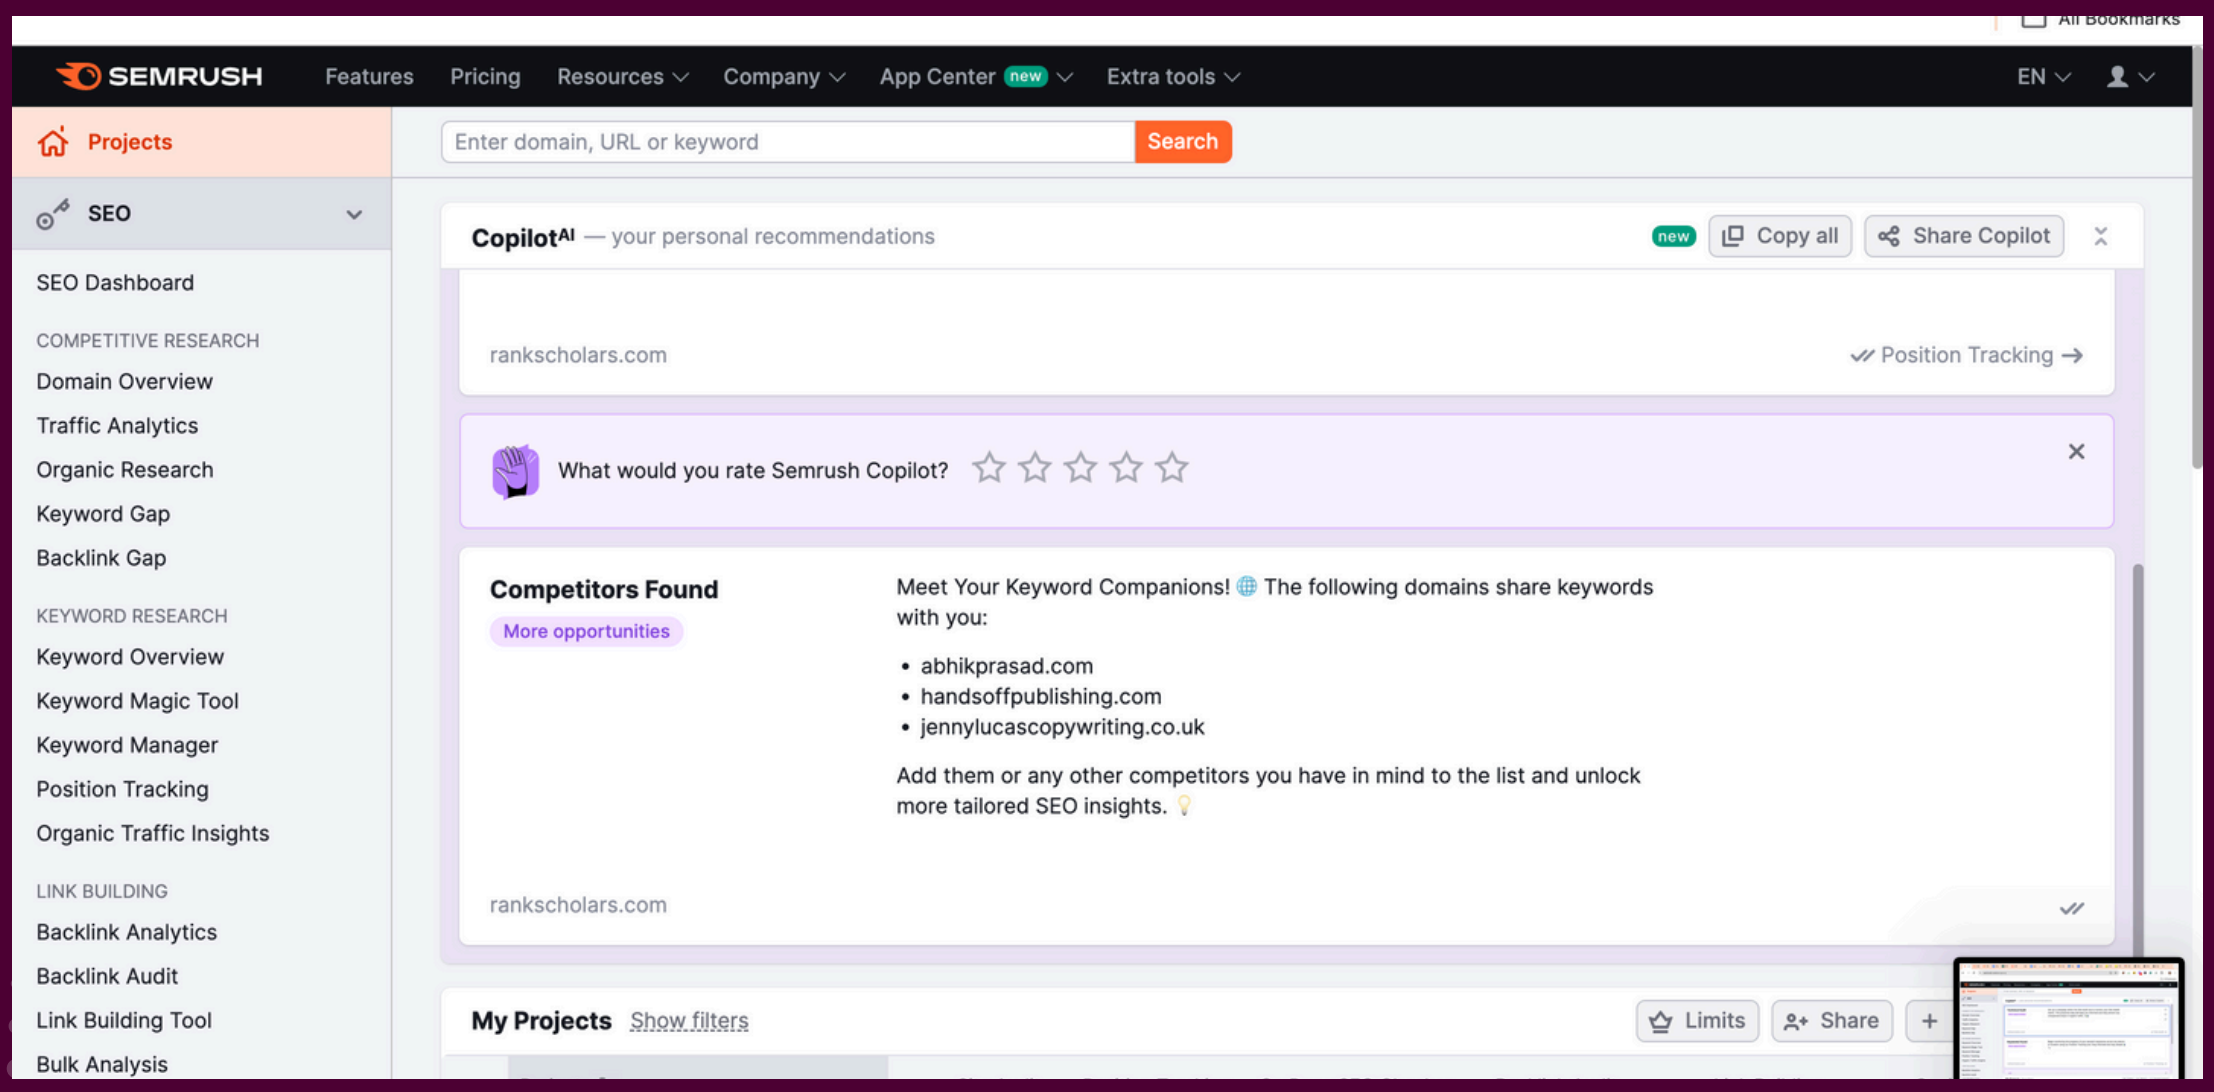
- **Backlink Analytics**
- **Organic Research**
- **Keyword Gap**
- **Backlink Gap**
- **Position Tracking**
- **Site Audit**

This powerful combination gives Semrush Copilot a complete view of your SEO health, letting it identify hidden opportunities you might have missed.

Basically, Semrush Copilot allows you to see the big picture and **prioritize the tasks with the biggest impact** on your website's success.

So, now you can focus on -

- **Doing strategic stuff,**
- **Crafting high-performing content,**
- **Building backlinks,**
- and **Celebrating your SEO achievements.**



The BEST PART?

Semrush Copilot is available for ALL Semrush users **(FREE + PAID)**.

Want to free up 10 hours this week?

Give **Semrush Copilot** a shot (the **link** is in my **comments**).
